

# WARNING

EVEN SPENT BATTERIES CAN BE A FIRE DANGER

New regulations require all

- 9 volt • rechargeable (NiMH, NiCd)
  - lithium (cell phone) • lithium ion • button cell batteries
- have their contacts taped before adding them to the recycling container!

**Acceptable tapes:** Clear Packing tape, electrical tape, scotch tape

**Unacceptable tapes:** Duct tape, masking tape

**Properly taped batteries**

Contact the Environmental Health and Safety Office at x3483 with any questions.
